

PVC Key Tag Set Up & Checklist 2009

Black line is bleed area, 90x58mm. All objects need to stay inside this area, images, backgrounds etc.

Pink line is trim line . The key tags will be stamped out from the bleed size and be provided as 3up. Each key tag will break off individually.

Check List

1. All Dimensions need to be correct to the above description.
2. File needs to be in CMYK.
3. Make sure all fonts are outlined.
4. Check that images are 300dpi or above and that they are embedded NOT linked.
5. If there are black colours, select them to make sure they are not photoshop black. C75 M68 Y67 K90 is photoshop black if colours are simlair to this please change to be a solid mix of C50 M50 Y50 K100 or C30 M30 Y30 K100. This will give you a rich black.

Barcodes

Barcodes can be placed anywhere on the card, please try to keep the barcode size above 20x12mm
